

VETERANS SIDING & EXTERIORS OF KS

Homeowner Spring Checklist

MIDWEST EDITION

✓ 10 THINGS EVERY HOMEOWNER SHOULD CHECK THIS SPRING:

- ✓ **Siding**
Check for cracks, warping, loose panels, or soft spots.
- ✓ **Roof**
Look for missing, lifted, or cracked shingles (especially after temp swings).
- ✓ **Gutters**
Clean out debris and make sure water flows away from your home.
- ✓ **Windows**
Inspect seals, caulking, and look for drafts.
- ✓ **Paint**
Look for peeling, cracking, or chipping paint.
- ✓ **Interior Water Stains**
Check ceilings and walls for water stains that could indicate leaks.
- ✓ **Foundation & Drainage**
Make sure water is draining away—not pooling against your foundation.
- ✓ **Doors**
Inspect weatherstripping, caulking, and check for gaps or damage.
- ✓ **Flashing & Seals**
Check around chimneys, vents, / rooflines for loose or damaged flashing and sealant.
- ✓ **Exterior Vents / Fascia & Soffits**
Check dryer vents, attic vents, and soffits for blockages, damage, or loose covers.

! PRO TIP → Most of these issues start small—and get **expensive fast**
